House and Store, at Bellevue, belonging to The Hart Estate. For further information apply to the Imperial Canadian Trust Company, Limited, Calgary, Alberta, or to L. H. Putman, their solicitor, Blairmore, Alberta.

FOR SALE OR RENT
Highway Farms VIII, IX, X, and XI. The Board has assigned to Mr. Verge a tremendous amount of work, and if the pupils make a fair success at their examinations there should be every reason to be satisfied. It is impossible for me to do more than to assure the parents of all who were present when I visited her room.

Mrs. Fulton is full of life and energy, and she utilizes this energy in every department of her work. The girls for whom she is responsible are frequent losers that tax a teacher's power of discipline, but Miss Fulton appears to experience no difficulty in this respect. There is an excellent spirit in the room, and pupils are particularly interested in the instruction of the teacher. She is very pleased with her methods and with the progress the pupils were making under her charge.

(c) Mr. Verge, Vergo lag under big highway farms VIII, IX, X, and XI. The Board has assigned to Mr. Verge a tremendous amount of work, and if the pupils make a fair success at their examinations there should be every reason to be satisfied. It is impossible for me to do more than to assure the parents of all who were present when I visited her room.

I was impressed with the diligent application of the pupils to their work, for no one could work harder than they doing for the advancement of the pupils.

The atmosphere in the school was very regular, and the conduct of the pupils in the halls was excellent, and it is evident that the pupils were well posted respecting the discipline of the school.

(d) On the whole the principal is supported by an efficient staff, and it is to be hoped that the Board will maintain the present degree of efficiency even under the present conditions of financial stringency.

(e) The general equipment of the school is very fair, but the equipment for science of the high school grades is very meager. A number of general goods would provide the pupils with more apparatus and simpler forms of apparatus and this would contribute greatly to the efficiency of this branch of the work.

(f) Some attention has been given to school gardening, and it is to be hoped that this will lead to sympathy and hearty co-operation to this commendable work.

(g) Plants were found in the windows of each of the class rooms, and this is a good feature, as it contributes to the

beautifying of the room, and to the interest of the children in plant life.

(h) The teachers are qualified in their particular subjects, and the large number of pupils at present would be sufficient for one small school, and it seems to me that more effective work could be done for the school if the pupils were more numerous.

This would enable the principals of each school to give their undivided attention to public school work, and therefore obtain better results while the pupils of the high school grades were taught in a more fully equipped school under the direction of specially qualified teachers. The need for high school and technical training will increase with the future development of the country, and the time is now to begin to make provision for this purpose that attempt to equip each school with a somewhat meager high school equipment.

In further discussing these or other educational problems, I shall appreciate it a pleasure to be at your service.

Yours very truly,

J. E. HODGSON,
Superintendent of Schools,
MacLeod Inspectorate,
To Mr. Wm. Joyce, Secretary,
Blairmore School District No. 68.

Meeting of School Trustees

A meeting of the Blairmore school trustees was held in the town office on Friday evening.

The resignation of Miss Murdoch was received and filed and it was decided to accept the application of Miss Vivian Keith as teacher for the primary department.

The following report was received from Inspector Hodges:

(Date of visit, 27th and 28th September)

Sir—During the above dates I made my official visit to your school, and have the following report to follow:

(a) Miss Isabel M. Murdoch has charge of the primary department. On the date of my visit there were 55 enrolled, and 51 were present.

Her classes were divided into three classes. There were too many pupils in this room to allow a teacher to do most effective work, as young children require a considerable amount of individual attention.

Her classes were divided into three classes. There were too many pupils in this room to allow a teacher to do most effective work, as young children require a considerable amount of individual attention.

Coleman Boy Had A Lucky Escape

The following is a letter from Mr. Chas. Onimette, of Coleman, which was received by his sister, Mrs. Nelson Murphy, at Edmonton, on Sept. 28, a few days ago. She has given the letter to me, as follows:

"Sir—I am enclosing a letter from my son, who is a boy of 10, which I wrote to you on Aug. 10, when we struck a mine. I will pass over the details, as they are too awful to relate; anyway, an orderly carried me upstairs, and then along the corridor, and I got out of the mine. I found my back would break but I managed to stand against the railing.

"Then a major came along, who got a life belt and passed it on to me. The orderly had a good deal of trouble getting me over the railing and down the side. You know there is a sort of plank run along the ship a few feet below the portholes. Well, to make a long story short, it stood until the ship went down. I found myself hanging by my belt, and I managed somehow to get hold of a long and was eventually picked up. It was only through the love and kindness of God that I am still alive.

"The men and the supplies and boats from Dover saved all who were saved. I wish you could have seen those grey boats coming to the rescue—40 miles an hour, throwing the water high in air. Once, at least, I heard a pistol shot. I thought it must have been good news, but it was not. It was the mother of one of the men who had been lost.

"We were taken to Dover and placed on the hospital train and rushed to Leamington.

"The doctor said he had never seen such a case before. He said I had a fractured spine, and he had to operate on me.

"The doctor said he had never seen such a case before. He said I had a fractured spine, and he had to operate on me.

"The doctor said he had never seen such a case before. He said I had a fractured spine, and he had to operate on me.

C. W. JOHNSTON MANAGER

Efficiency of Bag Pipes

(London Paper)

The wounded Highlander in hospital was very depressed, and seemed to make no effort to improve his condition.

His brother talked about his "bonnie Scotland," and the idea occurred to him to do something to cheer him up.

"Did the piper turn up?"

"He did, and he played 'Scotland, my Scotland'."

"And he's fine; I never saw such a character."

"Oh, he's fine; I never saw such a character."

"He's a fine lad, and he's got a fine idea of mind to get that piper."

"Yes."

Given the matron, patty; "but the other thirty patients have all had a serious relapse."

Radium's Cost**Cut One-Third**

Produced Now at \$37,000 A Gram and Used for Cancer Cures

Five grams of radium have been extracted from ore at the Bureau of Mines, and half of it has been delivered in advance to the Radium Institute in Baltimore, and the Memorial Hospital in New York for experimental use. Dr. George K. Lane, the secretary of the interior, in announcing this fact, asserted that this was the first time in history that one bird in the present selling price of radium had made public the method by which the U.S. Bureau of Mines had been able to produce radium at its reduced cost. This reduction was exacted by a new cutting method, which has been patented for the bureau.

The cost of making radium at the Denver experiment station of the Bureau of Mines is now \$37,000 per gram of the higher "experimental" product, was \$37,000 for each gram of radium, metal, which is used in the treatment of cancer weight.

The cost of making radium in the last three years has ranged from \$120,000 to \$160,000 a gram. The amount of radium produced per gram of radium for \$37,000 a gram has at last made it possible for two great hospitals to have a reasonably good supply of the metal for use in the treatment of cancer. This disease is costing the lives of 30,000 human beings in the United States every year.

Do Not Thirst for War**A Popular Delusion About Army and Navy**

It may be well to try and dispel the illusion that army and navy officers are easily promoted. This idea has been exploded by people opposed to the development of the navy in Canada, and has been received with so much enthusiasm that it seriously handicaps the endeavors of officers to get an unbiased hearing.

But the truth is that an idea from the brain of anyone if he would remain in the army or navy must join the army or navy does not cease to be a human being, with the same ambitions, the same men, the same sensitiveness to pain, the same sense of duty, and the same honor of losing his family, supported after his death.

In the army and navy families are educated to date death. If need be, but the present writer has been in the army and has been acquainted with army and navy officers for forty-five years and knows positively that they will do what they do not desire war at all. Rear-Admiral Bradley Fiske, the North-Western Heeler.

Co-operation in Saskatchewan

The old idea that farmer would not co-operate with farmer, that the farmer was not a business man and could not be interested in a business concern, has been answered. It will never be heard again in this world that farmers in Saskatchewan farmers have demonstrated their ability to co-operate. They have proven their loyalty to their own organization, despite very heavy losses, and have driven them away from it. Their organization, which was lauged at in the early days, has become a recognized factor in the grain trade of the continent which must be reckoned with and respected.

Now there is the Saskatchewan Cooperative Electric Power Association greatly improving the position of the Saskatchewan farmer and reducing his expenses, but still pushing him to a new position. In the world, it has broadened his outlook.

—Regina Leader.

Want Our Coal

A possible opening for British Columbia coal at Honolulu is pointed out by the department. The business of coal in the Pacific has increased since the opening of the Panama canal. At present the coal comes entirely from Australia and Japan.

DANGER SIGNALS.

No engine would be mad enough to run by the flag which signaled danger. What the danger was might not understand, but the signal taken it was. It is different with the average man or woman. They attempt to run by the dangerous signal of a nation. An attempt costs thousands of lives every year. When the appetite becomes irregular or entirely given up, when the bowels are constipated and broken, when there is a loss of sleep, when there is a constant feeling of dullness and languor, when the heart is failing, the danger signal. The stomach and its allied organs are failing to do their work and the body is losing the nutrition on which it stands.

Such a condition calls for the prompt use of Dr. Ernest G. Goldfarb's "Discoveries."

It is the world's greatest blood purifier. It is not a secret remedy for its importance in the human system. It is to be taken day and before each day has passed, the impurities of the blood are removed through the liver, kidneys, bowels and skin, and in a few days you will know by your improved health, keener mind, brighter eyes and clearer skin that the bad blood is passing out and the body is getting rid of its arterioses. The same good blood can cause pimples, acne, eczema and all skin eruptions, and the body is getting rid of its toxins and body builder. Get it today in tablet form or tablets form or write Dr. Ernest G. Goldfarb, Buffalo, N.Y., for free medical advice.

German Press is Muzzled**Major Anderson, a Canadian Escaped Prisoner, Makes Long Journey Unassisted**

The military department has been advised of the remarkable escape from the German prison camp at Wittenberg, Germany, of Major Anderson, son of the 3rd battalion, Edmonton. Major Anderson was captured by the Germans when he was sent to the prison camp at Saxonburg but for his knowledge of the German language was selected to go free as a captor. Major Anderson spent some months making his escape and was captured again when he did make a start, did so in full view of the strongest camp guard.

Wheat—Acreage, 6,884,874 acres; average yield, 11 bushels; total yield, 75,633,415 bushels.

Oats—Acreage, 2,864,846 acres; average yield, 32 bushels; total yield, 90,910,048 bushels.

Barley—Acreage, 1,074,874 acres; average yield, 32 bushels; total yield, 34,043,796 acres.

Oats—Acreage, 1,915 crop; average yield, 32 bushels; total yield, 61,043,796 acres.

Barley—Acreage, 1915 crop; average yield, 19 bushels; total yield, 3,043,796 acres.

Electricity—Pinched From Germans

For downright ingenuity and daring, the following incident, told by Royal Irish Rifles, has few parallels.

On one occasion our telephone lines were cut and we had to lay cables on the ground in the rear of the German lines.

We knew to whom they belonged or where they came; rumor had it that they were laid by the Germans somewhere in the German lines.

Without asking leave from the Germans, we cut the wires and pried open the insulation, cut the insulation, stripped the wires and carried them to the location of our own lines, etc. Lamps were found in the rear of the German lines and for many weeks a first class electric installation was in full swing with power "pinched" from Germany.

"The spirit of war may remain unchanged whatever the dangers, which confront it," writes Mr. Aspinwall, "but I can assure you that I describe it better than by quoting what was found by the censor in the German papers."

"Mother, it is sometimes very hot here and the shells are dropping."

The Saskatchewan Yield

Wheat Crop This Year Greater Than Any Since 1901, Says Department

in a final report on the grain crop of Saskatchewan, the provincial department of agriculture said yesterday the average yield per acre was 25.4 bushels of wheat, 45.9 bushels of oats, 32.2 bushels of barley, 19.2 bushels of rye, 19.8 bushels of flax. In 1901 the wheat averaged 25.4 bushels to the acre, the only time the yield has ever been greater than the 1910 yield.

Wheat—Acreage, 6,884,874 acres; average yield, 11 bushels; total yield, 75,633,415 bushels.

Oats—Acreage, 2,864,846 acres; average yield, 32 bushels; total yield, 90,910,048 bushels.

Planning for the Season's Work

By A. P. Marshall, Niagara Falls, Cana
da; Breeder Niagara White Wyandottes

At this time the breeders have rounded up to a large extent the result of their efforts, and it is considered a good time to repeat to some cases and in others how to make the best use of the time available.

It may be too early to plan now, but it may be that the time will come when the best results will be obtained by planning now.

Without a doubt, the best results will be obtained by planning now, and it is always better to plan now than to do nothing.

It may be too early to plan now, but it may be that the time will come when the best results will be obtained by planning now.

Without a doubt, the best results will be obtained by planning now, and it is always better to plan now than to do nothing.

At this time the breeders have rounded up to a large extent the result of their efforts, and it is considered a good time to repeat to some cases and in others how to make the best use of the time available.

It may be too early to plan now, but it may be that the time will come when the best results will be obtained by planning now.

Without a doubt, the best results will be obtained by planning now, and it is always better to plan now than to do nothing.

At this time the breeders have rounded up to a large extent the result of their efforts, and it is considered a good time to repeat to some cases and in others how to make the best use of the time available.

At this time the breeders have rounded up to a large extent the result of their efforts, and it is considered a good time to repeat to some cases and in others how to make the best use of the time available.

It may be too early to plan now, but it may be that the time will come when the best results will be obtained by planning now.

Without a doubt, the best results will be obtained by planning now, and it is always better to plan now than to do nothing.

if the breeders are not right the best equipment in the world will never produce what the breeders are looking for.

We might as well be ignorant as to what the breeders are doing, and it is a good time to learn what they are doing, and to see what they are doing.

At this time the breeders have rounded up to a large extent the result of their efforts, and it is considered a good time to repeat to some cases and in others how to make the best use of the time available.

It may be too early to plan now, but it may be that the time will come when the best results will be obtained by planning now.

Without a doubt, the best results will be obtained by planning now, and it is always better to plan now than to do nothing.

Jess Willard Is Gathering Coin

Championing is a profitable business. This is evidenced by the financial report of Jess Willard's engagement with the "Times" Bellevue, which, the financial statement issued by Manager Tom Jones includes these items:

That Willard was guaranteed \$1,000 a day, and "worked" 140 days.

That his average earnings were approximately \$1,500 a day, or \$180,000 in all.

That Willard received 60 per cent. of this sum, or \$108,000.

That the other 40 per cent. had been divided by the other members of the Willard syndicate, Frazee, Weber, Curley and Jones.

That Willard still is worth \$50,000, after buying Frazee and Weber out of the contract for \$33,000.

It is also brought to our attention that Willard has now sold his family car for \$500 more. After his contract with the show expired Willard was offered a 20-week contract at \$600 per week to go on the stage, but big Jess spurned it, saying that he needed a rest, and more than that seemed to be with his wife and children for a spell.

United States

Navy in 1921

If the programme, now before Congress is authorized in 1921 the United States will have the following vessels, built and building:

Battleships, first line.....	27
Battleships, second line.....	6
Battleships, second line.....	25
Armored cruiser.....	10
Scout cruisers.....	15
Cruisers, light class.....	5
Cruisers, second class.....	2
Cruisers, third class.....	10
Destroyers.....	118
Fleet Submarines.....	18
Coast Submarines.....	157
Mines.....	6
Gunsboats.....	24
Supply ships.....	4
Fuel Ships.....	16
Transports.....	4
Tenders and torpedo vessels.....	3
Special types.....	8
Ammunition ships.....	2

If the Huns in the meantime should defeat Britain and her Allies—then the above would be increased by another six as it is at present, neither then warships of the world would "Uncle Sam" to keep fighting with war vessels.

Knocker,

Dear Lord, don't let this knock down grow,
That would confirm my gravest fears?
I am improvement bitter for,
And I've been here for thirty years.

At everyone and everything
I've been here all night long and main
And now it pains me Lord to think
That all my knocks may be in vain.

No firm or individual
Has ever started business here
Without my doing off I could
To put them down and out for fair.

I tried to keep their doors back,
I lied about them clean, clear through,
Each for a stranger, which I had
I would have stolen from them too.

I fear I may be called upon
To help keep up the streets in town;
And in front of my property
Be asked to lay a sidewalk down.

Now that would cost me money too
(Although I made it in this town)
That would make me feel like a bear
With grief, O Lord, 'twould weigh me
down.

Also more people might come in
If this old burg should start to grow;
If such a thing should happen, then
Some of my pull is sure to go.
I ask, dear Lord, be it so.

This knock is a stinger for me,

That I among the knockers here

May still a knocker be.

A Shareholder

Sues Brewery

Vancouver, Dec. 27.—Frank is alleged in an action for an injunction, damages and a receiver instituted today by Mr. Thomas Graham of Michel, B.C., a shareholder of the Fernie-Fort Steele Brewing Company, against the Fort Steele company and Mr. Holand W. Wood, who is a director. Mr. Graham acts in behalf of himself and all other shareholders. Mr. R. P. Stockton is the solicitor for the plaintiff.

Mr. Graham asks for a declaration that an alleged transaction between the company and Mr. Wood, whereby Mr. Wood is said to have returned to the company 400 shares of the company's stock and received in consideration therefor certain property and a mortgage bond declared illegal and void as ultra vires of the company. He says that it be declared a fraud on the shareholders and in the alternative sue damages from Mr. Wood as a director for his aiding and abetting a breach of trust. He says that the transfer of land and bonds be declared illegal and without consideration, that the return of the shares be declared a reduction of the company's capital and that Mr. Wood a fraudster and an improver over the shareholders and creditors, and that it be void on those grounds.

FIGHT OR PAY

What Did You Do

To help the Empire's cause last year? Were you satisfied with yourself? Did you not afterwards think you could have done more? Don't you think you can do more this year?

There's Another Fellow

Who would go if he were sure his wife and children would be looked after in his absence. Help to send him by subscribing liberally to the Patriotic Fund when they call upon you to do so.

THE SUPREME COURT OF ALBERTA 1916

SITTINGS of the SUPREME COURT OF ALBERTA, Appellate Division, and the Trial Courts of Civil and Criminal, and for the hearing of appeals and other civil business, will be held at the following times and places for the year 1916. When a date is given for the opening of a Court or a sitting is a holiday, sick leave, or vacation shall commence on the day following the same.

Appellate Division

One Night Only
TUESDAY Jan. 4th

F. Stuart White presents the
Musical Comedy Hit of 1914"The Girl From
Nowhere"

With an All-Star Cast of Twenty

Direct from their holiday engagement at the
Grand Theatre, Calgary

Reserved Seats \$1.00. On sale at W. A. Beebe's

OF LOCAL AND GENERAL INTEREST

School will re-open on Monday
We returned from our "bender"
early last week.

J. B. Reuter and Fritz Sick, of
Lethbridge, were in town on Tues-
day.

Thomas O'Brien, of Michel, has
bought a cattle ranch in Uruguay,
South America.

FOR SALE—SPIRELLA SAMPLES
Size 20 to 30—Apply to H. E
GATE, Coleman, Alta.

Private A. Agnew was up from
Medicine Hat to spend Christmas
with friends in Blairmore.

Mr. and Mrs. Church, who were
visiting their son here, returned to
Pincher Creek and Calgary this
week.

Private George Taggart, of the
2nd Battalion, was in town in the
early part of the week visiting
friends.

The Saskatchewan legislature
has been called to meet for the
despatch of business on Tuesday,
January 18th.

Congratulations to Dr. and Mrs.
Oliver on the arrival of another
daughter to the joy of their home—
Athabasca News.

The liquor tax in Newfoundland
is \$400,000 a year. With prohibi-
tion in effect, the other fellow must
make up the amount.

LOST—A watch, stuffed with
Massey-Harris machinery. Ford
movement, good time-keeper. Cost
originally \$1.00. Finder will re-
ceive suitable reward for sheltering
same.

Don't miss "The Girl From
Nowhere" at the opera house tomor-
row night. This is a real live
show, and one that you can hear
and appreciate.

John Smith, who enlisted with
the 82nd, now connected with the
ambulance corps. Mr. Smith was
in town last week end visiting
his sister, Mrs. W. Shaw.

The free show given in the opera
house by the West Canadian Col-
lieries Co., on Friday night, was
certainly well attended. The pictures
were all exceptionally good.

LOST—I. H. Putnam lost a left
shoe. If the finder of that left
shoe would leave that shoe where it was left he would receive
a reward that was left for the finder
of that shoe.

The Union church services on
Sunday evening were addressed by
Mr. Marsh, of Harderville, Leth-
bridge. Mr. Marsh is an ex-min-
ister, having quit the ministry on
account of failing health, and is
an able speaker.

The Blairmore hotel closed its
doors as a large joint and board-
ing house on Friday evening, and is
being runned by Wilfrid Wal-
stenholm this week as a barber
shop and postroom. The barber
shop will be in charge of C. C.
Church.

Monday (today) is nomination day
for the municipality. Two
vacancies are to be filled, and we
have already heard the names of
Joseph Little and Thomas Ed-
mondson as likely candidates for
municipal honors. If they are
elected, we may look for some
much-needed reform in municipal
transactions. Top is already
being trained.

German newspapers express ag-
gitation at the assistance the
British government, and especially Canada, have rendered
the Empire in the war, and declare
that Germany will have to pay
them a heavy indemnity when
peace is restored. There is no
doubt Germany will need the
money, but she will have to touch
up someone else.

The balance of Church's chickens
were "interred" since Christmas
Eve.

Miss Lucy Howe spent Christ-
mas Day with friends in Leth-
bridge.

A slight fire occurred in the
office of E. Seyen on Thursday af-
ternoon.

Mrs. Kidd's maternity home,
Box 95, Phone 151. Wedding cakes
decorated.

The officers of Blairmore Lodge
I.O.O.F. will be installed on Tues-
day night next.

Mr. and Mrs. W. J. McGowan,
of Maple Leaf, were visitors in
Blairmore last week.

A large number of local sports
attended the hockey match at
Frank on Saturday night.

Emil Troos, who has resided at
Bluff for the past two years, visited
friends here during Christmas
week.

A little boy in Lethbridge re-
marked: "Papa, why do you buy a
Ford? We can never get to
heaven in it!"

A little boy in Lethbridge re-
marked: "Papa, why do you buy a
Ford? We can never get to
heaven in it!"

The glass porch being built
around Manager Charlton-Sinclair's
residence by Contractor Sinclair
are nearing completion.

A proclamation has been issued,
calling a meeting of the Canada
parliament at Ottawa for Wednes-
day, January the 12th, 1916.

A grand smoker was held in the
sample room at the Alberta hotel on
Friday night, where beer, cigars
and dancing were the chief games.

Several parties from Blairmore
and Frank attended the dance
given in the Windsor hotel at
Lundbreck on Tuesday night, and
all report a good time.

Wilfrid Walstenholm has leased
the Blairmore hotel for a term, and
purchased the furniture and fixtures.
We understand that the place will be utilized as a rooming
house, lunch counter, post-room
and barber shop, and will open as
such at once.

The White Star Line has agreed
to pay \$600,000 in settlement of
all claims arising from the sinking
of the Titanic on April 15, 1912,
when more than 1,500 persons were
drowned. Of this amount approximately
\$500,000 will be distributed
among American claimants, \$60,-
000 British claimants and \$114,-
000 would be required for interest
and expenses of numerous suits.

A modern duple with parson
striped cloths, paddle-colored
shoes, a long necktie, hair parted
over his nose and smoking a cigar-
ette, addressed his best girl thus:
"If you was me and I was you,
what would you do?" She unhesi-
tatingly said with a smile: "I would
take off that tie, put that cigarette
in the stove, put my hair on the
side then pray to God for
brains."

Frank Happenings

Private E. Blais spent Christmas
with his parents.

George Padgett, of Calgary, spent
Christmas with R. Niven and
family.

Mr. Black, of Coleman, occupied
the Methodist church pulpit here
on Sunday night.

Mrs. Threlfall, accompanied by
Mrs. Joyce, of Beaver Mines, spent
Christmas with her son, W. H.
Hilton.

Bobby Powers, an old-time
hockey player in The Park, spent
Christmas with R. Niven and
family.

Sam Paton, who has been con-

valescing here the past month, re-
turned to Medicine Hat on Wed-
nesday.

Mr. and Mrs. T. Moore, of Beaver
Mines, visited relatives here dur-
ing Christmas, returning home on
Sunday evening.

Joseph J. Tompkins, who is with
the 82nd at Calgary, spent a few
days here with old friends during
Christmas week.

The hockey game, scheduled to
take place at Hillcrest on Chris-
tmas Day, did not materialize, owing
to the stormy weather.

Miss E. McKinnon, of Michel,
and Miss L. Bakus and Steve
Rekun, of Burns, spent Christmas
with A. J. and Mrs. McKinnon.

Mr. E. Doukin gave an afternoons
tea at his residence on Sunday
afternoon, from which the sum of
\$7.30 was netted for the Red Cross.

That left shoe-left by Blairmore's
law adjuster, has, we understand,
been left with the party who left
that left shoe where it was left.

Mr. Mackenzie has been en-
closed in his home for a few days.
His practice is being attended to by
Dr. Gile, of Pincher Creek.

The Musical Comedy Hit of 1915, at the
Blairmore Opera House Tomorrow night

FARM BUILDINGS THAT PAY

- 1. General Purpose Barns.
- 2. Dairy Barns.
- 3. Beef Cattle Barns.
- 4. Horse Barns.
- 5. Sheep Barns.

The above buildings, supplied by the

AGRICULTURAL AUTHORITY OF THE UNIVERSITY OF SASKATCHEWAN and by the BRITISH COLUMBIA FOREST SERVICE, will help you to decide on the best designs for your Farm Buildings. The bulletins show detailed plans and complete bills of materials for lightings that have all the latest practical features. They are specially designed to meet prairie conditions. They will help you to estimate the cost of lumber, order materials, erect the buildings and make the fullest use of them. They will prove of real value to every prairie farmer.

SERVICE TO WOOD USERS

For copies of any of the above bulletins in which you are interested
write to the Agricultural Authority, University of Saskatchewan, or to any
forester connected with the use of lumber or other forest products, address H. Hol-
mes, British Columbia Lumber Commissioner, Rygma, Saskatchewan; or
the Chief Forester, Victoria, B.C.

BRITISH COLUMBIA HAS A WOOD FOR EVERY USE
